OUR DUAL AIR FILTRATION UTILIZES

MERV-8 AND MERV-15 FILTERS

The dual filters provide an air quality level equivalent to the standards of general surgery settings, filtering particles as small as 0.3 microns!

STAYING INFORMED & SAFE

Our top priority is the safety of our tenants and the M7 community, and we appreciate everyone's cooperation and commitment during these challenging times.

As CDC and local wellness guidelines continue to evolve, the Merritt 7 team will continue to keep our community apprised of changes to building policy and ensure our workspace continues to be a healthy and happy business environment.
